

Archer's Case Study

Archers Estates is an independent Estate Agent based in Crosspool, Sheffield. Established in 1997, they have become one of Sheffield's most popular agents in residential sales and lettings. They have built a reputation for providing a friendly and honest service and are committed to working with partners and suppliers who reflect those same values.

It's one of the reasons they chose to protect their tenants' deposits in the [TDS Insured](#) scheme back in 2007. They had always enjoyed the helpful advice they received from the team at [Tenancy Deposit Scheme \(TDS\)](#) and found the website easy to use and navigate.

In 2020, they decided to make the move from [TDS Insured](#) to [TDS Custodial](#).

“We moved over to TDS Custodial for a number of reasons; it was more straightforward in terms of accountancy/client money compliance, it was easier to deal with disputes at the end of contracts, and it made more sense financially because there was no cost,”
commented Duncan Archer.

Archers actioned the transfer of deposits and moved all of their Insured deposit protections over to TDS Custodial with the help of the [award-winning](#) TDS Customer Service and Client Success team.

“It was so easy and stress-free to switch over.”

If you want to enjoy the benefits of the free deposit protection scheme from TDS Custodial like Archers Estates have, it's quick to switch – whether you're moving your deposits from TDS Insured or another scheme. Make the move and make your job easier. [Switch today](#).
